

# Primer Millennium Ultra 2

## Post-Emergent Selective Broadleaf Herbicide

**Primer Millennium Ultra 2, a premium post-emergent selective herbicide, with a composition of 2,4-D, clopyralid and dicamba, provides one of the most effective liquid formulations for superior control of a wide range of broadleaf weeds.**

- Three powerful weed-killing amines in one formulation
- Excellent control of even the hardest-to-kill weeds
- Innovative chemistry – rapid response, maximum performance
- Complete, rapid control of clover with one application
- For use throughout the growing season
- Tank mix compatible with most liquid fertilizers or iron
- Specifically formulated for commercial turf use
- NOT for use on residential lawns

### Weeds controlled
